

(4) Certificates and operating manuals, including certificates issued by the Federal Communications Commission.

(d) During an initial inspection for certification the owner or managing operator shall conduct all tests and make the vessel available for all applicable inspections discussed in this paragraph, and in Subpart H of this part, as applicable, to the satisfaction of the cognizant OCMI, including the following:

(1) The installation of each rescue boat, liferaft, inflatable buoyant apparatus, and launching appliance as listed on its Certificate of Approval (Form CGHQ-10030).

(2) The operation of each rescue boat and survival craft launching appliance required by Part 117 of this subchapter.

(3) Machinery, fuel tanks, and pressure vessels required by Part 119 of this subchapter.

(4) A stability test when required by § 170.175 in subchapter S of this chapter.

(5) Watertight bulkheads as required by Subchapter S of this chapter.

(6) Firefighting systems as required by part 118 of this subchapter.

(7) The operation of all smoke and fire detecting systems, fire alarms and sensors, and fire confining appliances (such as fire screen doors and fire dampers).

#### **§ 115.404 Subsequent inspections for certification.**

An inspection for renewal of a Certificate of Inspection normally includes inspection and testing of the structure, machinery, equipment, and on a sailing vessel, rigging and sails. The owner or managing operator shall conduct all tests as required by the marine inspector, and make the vessel available for all specific inspections and drills required by subpart H of this part. In addition, the OCMI may require the vessel to get underway as part of the inspection for certification. The inspection is conducted to determine if the vessel is in satisfactory condition, fit for the service intended, and complies with the applicable regulations in this subchapter.

### **Subpart E—Reinspection**

#### **§ 115.500 When required.**

(a) The owner or managing operator shall make a vessel available for re-inspections within 60 days of each anniversary of the date of issuance of the Certificate of Inspection during each triennial inspection period. The owner or managing operator shall contact the cognizant OCMI to arrange for a reinspection to be conducted at a time and place acceptable to the OCMI.

(b) In addition to the requirements of paragraph (a) of this section, a reinspection may be made at such other times as may be required by the cognizant OCMI.

#### **§ 115.502 Scope.**

In general, the scope of the reinspection is the same as the inspection for certification but in less detail unless it is determined that a major change has occurred since the last inspection for certification.

### **Subpart F—Hull and Tailshaft Examinations**

#### **§ 115.600 Drydock and internal structural examination intervals.**

(a) The owner or managing operator shall make a vessel available for drydock examinations and internal structural examinations required by this section.

(b) A vessel making an international voyage subject to SOLAS requirements must undergo a drydock examination at least once every 12 months. If the vessel becomes due for a drydock examination or an internal structural examination during the voyage, it may lawfully complete the voyage prior to the examination if it undergoes the required examination upon completion of the voyage to the United States but not later than 30 days after the examination is due. If the vessel is due for an examination within 15 days of sailing on an international voyage from a United States port, it must undergo the required examination before sailing.

(c) Except as provided in paragraph (d) of this section, a vessel not making
